

Natural gas condensing boilers: input capacity up to 299 MBTUH

Rebates for your business

Natural gas condensing boilers must meet an AFUE greater than or equal to 90 percent and have an input capacity up to 299 MBTUH to be eligible for a rebate from energySMART, a Nicor Gas program. As of the date indicated at the bottom of this page, the following models have been verified as eligible for this rebate by energySMART. Additional requirements apply. Visit nicorgasrebates.com for complete details and to verify eligibility.

energySMART offerings and availability of funding are subject to change. To ensure eligibility, please use the most current qualifying products list available at
<http://nicorgasrebates.com/your-business/rebates-for-your-business>

energySMART, a Nicor Gas program, is a multi-year program funded by Nicor Gas customers in compliance with Illinois law.
